

G.S. Chapter 87-14 & 97 Compliance Verification

For verification of compliance with G.S. 87-14 & 97, licensed General Contractors shall provide the Inspection Department with a Certificate of Insurance to verify Workers Compensation Insurance. The Certificate shall list the Inspection Department for notification if insurance coverage lapses. The Certificate shall contain the dates of coverage. All licensed general contractors indicating compliance or exempt status, with an original Certificate of Insurance on an annual basis, shall submit the Compliance Verification below.

When notified by the Insurance Carrier that Workmen's Compensation Insurance has lapsed, the Inspection Department will issue a stop work order for all construction on site until such time as the contractor can verify with a new Certificate of Insurance and Compliance Verification that the required insurance is being provided. The Inspection Department can issue a stop work order for lapse of coverage without notification from the insurance carrier if he has reason to believe that coverage has lapsed.

Workers Compensation Verification must be signed by the general contractor holding the license, and will not be accepted without being notarized.
